PRIVILEGES OF CONTRIBUTORS.

Subscribers of a Guinea and upwards for more than one year are Governors as long as they maintain their subscriptions. Donors of ten guineas and upwards in one sum are Governors for life. Governors are entitled to send their own domestic servants for free treatment in the Hospital.

Firms, Clubs, and Hotels subscribing two guineas annually may send one of their employés for free treatment each year; four guineas, 2; and five guineas, 3 employés.

No Letters of Admission are issued. It will be sufficient for contributors to give their names to ensure the free treatment to which their servants or employés may be entitled.

The Accommodation is of two kinds, viz.—

(1) In the wards at a fee of £3 3s., payable on or before admission, and this covers the whole period of the patient's stay in the Hospital; which, in scarlet fever cases, is from six to eight weeks; and

(2) In private rooms (for scarlet fever and typhoid only) at a fee of £4 4s. a week, payable weekly in advance.

Prompt Admission may be secured as follows:—A medical man should be asked to certify the disease the patient is suffering from, and this certificate should be sent to the Hospital together with the name of a person who will undertake to see that the fee of £3 3s.* (or £4 4s. a week, as the case may be) is paid. If the sufferer can be received, a brougham-ambulance with attendants, including a nurse when necessary, will be sent to convey the patient to Hospital. There is a charge, according to distance, for horse hire for the ambulance, to be paid in addition to the fee, except in the case of Governors residing within a radius of five miles of the Hospital. These are entitled to free conveyance for their servants as well as free treatment.

If the ambulances of the Hospital cannot be spared for the journey to a distant suburb, information will generally be given as to where to apply for a conveyance locally.

N.B.—Disregard of these instructions frequently causes delay and annoyance.

---

*Not required in cases where sufferers are entitled to free treatment.

REPORT OF THE COMMITTEE

FOR THE

Year ended December 31st, 1912.

The Committee present herewith their One Hundred and Eleventh Annual Report of the Hospital.

Total Number of Patients.—The total number of patients under treatment was 570—a diminution of 363 compared with last year, when the number was abnormally increased by the presence of a severe Epidemic of Measles. Of the cases 526 were discharged cured, 5 died, and 39 cases remained under treatment at the end of the year.

Scarlet Fever.—Scarlet Fever was even less prevalent during the past year than it was during the one previous. The number of cases admitted however was 212, as compared with 186 cases in the previous year (1911), 210 cases in 1910, and 453 cases in 1907. There were 34 cases in the Hospital when the year began, so that the total number under treatment was 246, as compared with 206 last year. Of these, 220 were discharged cured, 24 remained in the Hospital at the end of the year, and 2 died, a mortality of 0·9 per cent.

The records of the London Fever Hospital reflect many notable changes in connection with the progress of sanitary science, and the prevalence and the prevention of fevers in the Metropolis, during the lengthened period of its history of one hundred and ten years since its foundation in 1802. Scarlet Fever cases began to be admitted and included by name from 1813 onwards, but comprised then only two or three per cent. of the total cases. These were made up of the much deadlier disease "Typhus," under which name both Typhus and Typhoid fevers were then included. Thus in 1818, out of 781 cases admitted, 760 cases were "Typhus" and 21 cases were Scarlet Fever.

The records show the following striking diminution in the mortality of Scarlet Fever in the 20,000 cases of that disease admitted since 1864.

MORTALITY FROM SCARLET FEVER

1860 1865	1865 1869	1870 1874	1875 1879	1880 1884	1885 1889	1890 1894	1895 1899	1900 1904	1905 1909	1910 1912
14·2%	10·9%	9·3%	8·3%	5·7%	2·1%	1·9%	1·7%	1·0%	1·9%	1·13%

So far as its mortality is concerned, Scarlet Fever has been rendered a much milder disease than it formerly was. Its chief dangers, which still render necessary all the measures of prevention and care which Hospital treatment can best bestow upon it, arise from its varying degree of virulence and the complications to which it is in a special degree liable. The records of the Hospital continue to show a marked diminution both in the incidence and in the severity of these complications.

No cases of cross-infection between Scarlet Fever and any other infectious disease in the Hospital occurred during the past year.

Measles (Morbilli—"English" Measles).—The number of cases admitted during the year was 122; one case was in Hospital at the beginning of the year so that the total number under treatment was 123—being 9 more than last year. Of these 117 were discharged cured, 6 remained in the Hospital at the end of the year; none died.

This absence of mortality is largely attributable to the fact that the patients admitted are mostly young adults—only a small proportion of cases being below the age of 5 years, up to which age this disease is most fatal—the mortality ranging from 15 to 30 per cent. In respect both of its prevalence and of its mortality Measles is in young children below the age of 5 years a more common and fatal disease now than Scarlet Fever or Diphtheria

The London Fever Hospital has for many years been the only one in London which has admitted cases from other Hospitals, Public Institutions, Hotels, Business Establishments, etc., and the numbers show a steady increase; the annual average of the last three years being 109 cases, as compared with annual averages of 62 for the previous ten years, 1900–1909, and 32 for the preceding ten years, 1890–1899.

German Measles (Rubella).—The number of cases of this disease admitted during the year was 62. Two cases were in Hospital at the begining of the year, making the total number under treatment 64; all these were discharged cured.

The outbreak of this disease during the preceding year was the most severe one recorded in the history of the Hospital. During the past twenty years the highest number of admissions in any one year had been 145, 161 and 213, in 1898, 1900 and 1901 respectively, but in 1911 469 cases were treated.

The London Fever Hospital was for many years the only Hospital in London, or elsewhere, which admitted cases of both varieties of measles. During the past twenty-three years 3448 cases have been admitted, viz.—English Measles 1260 cases and German Measles 2188 cases. The annual average of admissions for the German Measles has been 54 cases for 1890–1899, 101 cases for 1900–1909, and 213 for 1910–1912.

Thus the advantages which the Hospital offers to a patient suffering from either form of Measles are meeting with increased recognition. As regards German Measles, it would appear that more cases are being sent in for isolation—either as such, or in mistaken diagnosis for English Measles, with which disease its outbreaks coincide. A majority of the cases admitted are sent in with the diagnosis of "Measles," without any indication of the particular variety. It happens not infrequently that cases of both varieties are admitted from the same business establishment at the same time.

The disease is one of the mildest, no deaths having occurred in the 2188 cases admitted into the Hospital during the past twenty-three years. It derives its chief importance from its resemblances to Scarlet Fever on the one hand and to English Measles on the other, and from the difficulties in diagnosis to which—more perhaps than any other form of fever—it gives rise.

As pointed out last year, the records of the Hospital show a definite periodicity in its prevalence, the highest number of admissions always occurring over a period of five years, at the end and the beginning of decennial periods, reaching a maximum about every tenth year, with a period of quiescence during the five years of the middle period of the decennium. Thus in five years—(1893–1897)—the number admitted was 176; while in the next four years—(1898–1901)—it was 552. In the following five years (1902–1906) it was 246, while in the succeeding five years—(1907–1911)—it was 968 cases.

DIPHTHERIA.—The number of cases admitted during the year was 71. Fourteen cases were in the Hospital at the beginning of the year, so that the total number under treatment was 85, or five more than in the previous year. Of these, 77 were cured; 6 remained in Hospital at the end of the year, and 2 died—a mortality of 2·5 per cent. No case of cross infection between the disease and any other disease occurred in the Hospital during the year.

The number of cases of diphtheria seeking admission to the Hospital is on the increase. The number admitted during the previous two years was 73 annually, as compared with an average of 56 in the ten years 1900–1909, 45 for the ten years 1890–1899, and 14 for the ten years 1880–1889—a total of 802 during the fifteen years, 1895–1909, as compared with 213 during the previous fifteen years, 1880–1894.

The mortality of the 217 cases admitted during the past three years has been 4·14 per cent., in marked contrast to that which prevailed thirty years ago when it was 20 to 50 per cent., an average of 23 per cent. The quinquennial periods of the past thirty years show the following rates of mortality :—

MORTALITY FROM DIPHTHERIA.

1880-4	1885-9	1890-4	1895-9	1900-4	1905-9
23%	24·7%	15·5%	14·2%	4·5%	3·8%

the total number of cases being 1215. The sudden fall in the mortality of the disease from 14 per cent. to 4 per cent. which set in from 1900 onwards is very striking. While attributable in some measure to the more accurate methods of diagnosis which enable the disease to be recognised in its very earliest stages, and to the larger number of milder cases which are now admitted, it is due in a far more marked degree to the anti-toxin treatment of the disease which was first introduced in 1894 and came into general employment from 1900 onwards.

The same striking diminution of mortality is shown even more markedly in the Hospital cases treated in the Asylum Board Hospitals, viz., from 30·4 per cent. in 1890–93 to 8·5 per cent. in 1911 for all forms of Diphtheria, and from 62 per cent. in 1890–93 to 14·9 per cent. in 1911 for Laryngeal cases.

Instead of being one of the worst of diseases, Diphtheria is now very amenable to control when treated in its earliest stages.

Typhoid Fever.—Six cases of this disease were admitted, four left the Hospital cured, two remained under treatment.

Diseases other than the Foregoing.—The Tables appended to this Report, drawn up by Dr. Lytton Maitland, the Resident Medical Officer, show that 45 patients were sent in to the Hospital during the past year suffering from diseases other than the foregoing. These cases comprised 18 cases of Chicken-pox, Erysipelas and Mumps; 10 cases of Tonsillitis; and 17 patients with diseases other than those for which they were certified; all these recovered.

Isolation Rooms Accommodation.—During 1911 it was found necessary to close the Wing Block, hitherto used for Measles patients, as no longer suited for its purpose. Greatly improved accommodation was provided for the patients suffering from these diseases in the new wards of the reconstructed Block B. But the need for single rooms—instead of larger or smaller wards—for the isolation of individual patients suffering from different diseases or diseases of doubtful nature, is still very great, and constitutes the most urgent need of the Hospital at the present time. The provision of a series of isolation rooms in place of the Wing Block now closed would add greatly to the advantages which this Hospital places at the disposal of its patients, and would greatly lessen the administrative difficulties caused by the absence of such accommodation.

If this provision were made, the total accommodation available in the Hospital would then be the existing twelve excellent Wards of Blocks B, C & D, containing 140 beds, and an addition of a number of Single Rooms to the thirteen already existing, and available for isolation of individual cases, or for the use of private patients.

Changes in the Staff.—Dr. Lytton Maitland was re-elected Resident Medical Officer on November 28th, 1912; Dr. George Crichton Jackson, B.A., M.B., B.C., Cantab. D.P.H. was elected Assistant Resident Medical Officer, January 11th, 1912.

Medical, Nursing and Domestic Staff.—During the year the Assistant Resident Medical Officer contracted German Measles, and there occurred among the Nursing Staff one case of Measles, one of German Measles, one of Diphtheria, one of Scarlet Fever and one of Varicella; three Maids contracted Diphtheria, and there were several cases of Tonsillitis.

Your Committee deeply regret the loss by death on September 10th, 1912, of Sir Joseph Dimsdale, for 20 years Trustee and Treasurer of the Hospital. They are glad to announce that a successor has been found in Sir Felix Schuster, who was elected Treasurer on the 14th November, 1912.

Financial Position.—The annual subscriptions amounted to £4,523, a decrease of £162 on the amount in 1911. The donations were £1,865, a decrease of £82 as compared with 1911. From the King's Fund there was received £50; from the Hospital Sunday Fund, £231; and £20 from the Hospital Saturday Fund.

The amount received in Legacies was £417, exactly half the sum received the previous year.

The Legacies received were :—

	£	s.	d.
Nathaniel Cohen	100	0	0
C. W. Waters	47	16	8
T. P. Rider	20	0	0
Wm. Hy. Coombes	250	0	0
	£417	16	8

The serious fall in the amount of Legacies is still a cause of anxiety to the Committee, whose policy it has, for many years, been to set aside all Legacies in order to meet the special demands that necessarily arise from time to time for purposes of re-constructing and modernising the Wards or adding to the Hospital accommodation. It has in this way been enabled during the past seven years to carry out the re-construction of large blocks of the Hospital without making any special appeal. The outlay necessary for this purpose has greatly reduced the income available for the general purposes of the Hospital. The public have the full advantages of it in the greatly improved and excellent wards now provided; and in the increased efficiency with which the Hospital is enabled to carry out its work of preventing the spread of contagious fevers among the class of patients —still a large one—for whom it is specially intended.

Scope of Work of the Hospital.—The number of cases of Scarlet Fever notified annually in London, over and above those seeking admission into the Public Hospitals of the Asylums Board, is still a large one, and during the last five years a fairly uniform one, viz., about 10 per cent. of the total cases notified.

The following are the numbers and proportions :—

Year	1906	1907	1908	1909	1910	1911
Number	2,256	2,538	2,008	1,466	1,019	1,665
Percentage of Total Notifications ..	11·5%	10·6%	9·1%	9·8%	11·1%	10·8%

It is with this steady proportion and large but varying number of cases that the London Fever Hospital is concerned, as the only Hospital available for this class of patient.

The number of cases of Diphtheria notified in London each year is only one-half to one-third that of Scarlet Fever cases. The proportion of these cases treated at home, or elsewhere outside the Asylums Board Hospitals, is larger than in the case of Scarlet Fever—averaging about 15 per cent.

Excluding altogether the Measles cases, the number of cases of Scarlet Fever and Diphtheria occurring annually in London, which do not seek admission into the Asylum Board Hospitals, but prefer to be treated at home, or in the London Fever Hospital—the only other Isolation Hospital in London—is a very considerable one, viz., 2,000 to 4,000 a year, or 10 to 15 per cent. of the total cases.

Despite, then, the public provision now made for the isolation of fever cases, there still remain this large proportion and number of patients for whom the more private accommodation and the isolation conveniences of the London Fever Hospital are available and continue to remain necessary.

LONDON FEVER HOSPITAL.

LIVERPOOL ROAD, ISLINGTON.

LAWS AND REGULATIONS.

Reception of Patients.

1. The Hospital is intended for the reception of persons suffering from infectious fever other than small-pox, and more especially for such of those persons as may require isolation, in order to prevent the further spread or propagation of the disease from them to others.

2. Any person (not being a parochial pauper) labouring under such disease shall, subject to the next rule, be considered a proper person for admission into the Hospital.

3. The Committee may from time to time make regulations for the admission of such persons as patients on payment of such sums as may be from time to time determined, provided always that—

(*a*) Domestic servants of governors shall be admitted gratuitously.

(*b*) The Committee may, if they think fit, at any time reduce or wholly remit the fees in the case of individual patients.

4. Applications for admission should be accompanied by a medical certificate stating the nature of the disease. The medical officers may, in the exercise of their discretion, refuse admission to any case which they deem unfit; but every refusal to admit a patient shall be reported at the next meeting of the Committee together with the reason for the refusal.

Governors.

5. All subscribers of not less than one guinea per annum, who have subscribed for more than one year, and all donors of not less than ten guineas in one donation, shall be governors of the Hospital. This rule shall not be retrospective.

General Meeting and Election of Committee.

6. A general meeting of the governors, of which ten days' previous notice must be given in three morning newspapers, shall be held every year, on the second Friday in February, or as near thereto as may be convenient, for the purpose of approving or rescinding the proceedings of the Committee for the preceding year; for receiving the annual report of the state of the funds; and for electing a president, vice-presidents, treasurer, honorary secretary, and other members of the Committee for the ensuing year.

7. The Committee for the management of the Hospital shall consist of the president, the vice-presidents, the trustees, the treasurer, honorary secretary, and not less than fifteen nor more than twenty-five other governors.

8. A special general meeting of the governors may at any time be called by direction of the president or of the Committee; or on the requisition of any twelve governors, provided the requisition be made in writing to the secretary and the purpose for which the same is summoned be published in three morning newspapers at least ten days prior to the meeting; but the proceedings of such special general meeting, though acted upon *pro tempore*, shall not be deemed final until confirmed by another general meeting.

9. No new rule or law shall be made, nor shall any existing rule or law be repealed or altered, until determined upon at a general meeting by a majority of governors present and voting, and until confirmed at a subsequent general or special meeting.

10. The presence of seven governors shall be necessary to constitute a quorum at general meetings, and without that number no business shall be transacted.

The Committee.

11. The Committee shall manage the Hospital. They shall meet on he second Friday, or on such other day of every month as they may appoint; and three members shall be necessary to constitute a meeting and to transact business. A special meeting of the Committee may be called by the direction of the honorary secretary, or by any three members of the Committee, on giving at least three days' notice of the same to the members of the Committee, and specifying the business for which it is called.

12. The Committee shall have authority to appoint sub-committees, whose reports shall be submitted to their consideration; and with the assistance of the medical officers shall, from time to time as may be expedient, form regulations and by-laws for the internal management of the Hospital.

13. The resolutions of one meeting of the Committee shall not be rescinded by another, unless it be specially summoned for that purpose.

14. The Committee shall yearly publish a report of the state of the Hospital.

15. All accounts, except such sums as may be comprised under the item of petty cash, shall be submitted to the Committee at the monthly meetings, after having been duly examined by the secretary, the resident medical officer, the house directors, and certified by the auditor; and such accounts, if approved, shall be paid by cheques, payable to order, signed by two members of the Committee, on production of the house directors' minutes relating to them, and countersigned by the secretary.

16. No member of the Committee shall furnish, otherwise than gratuitously, any goods, provisions, or other articles, for the use of, or on account of, the Hospital, or be concerned in any contract, directly or indirectly, for supplying the same, or be employed for hire, fees, wages, or profit in any office or employment in connection with the Hospital.

Conduct of Meetings.

17. At all meetings a simple majority of the members present and voting shall bind the minority; and in case of equality of votes, the chairman shall have an additional or casting vote.

Treasurer.

18. The treasurer, if present, shall take the chair at all meetings of the Committee, in the absence of the president or vice-presidents. He shall keep an account at the bankers', and all moneys received for the use of the Hospital shall be paid to such account; he shall honour cheques signed, as provided in Rule 15.

Honorary Secretary.

19. In the absence of the Committee, the honorary secretary shall represent the Hospital with the public and with public bodies, reporting his action to the Committee.

Audit.

20. All accounts of the Hospital shall be audited by a professional auditor. The auditor shall certify the accounts, and it shall be his duty to report to the Committee anything in the books or accounts which in his opinion appear to call for comment.

21. At the meeting of the Committee in November, three gentlemen, one at least of whom shall not be a member of the Committee, shall be appointed to examine the accounts of the Hospital for the current year, and approve an abstract of all receipts and disbursements to be prepared by the secretary, and laid before the annual general meeting in February.

House Directors.

22. The house-directors shall consist of the trustees, treasurer, the two physicians, and the architect, who shall be *ex-officio* house-directors, and of three elected house-directors chosen as follows:—The Committee at their meeting in February shall

appoint a member of their own body to be chairman of house directors, who shall retain office for a term of three months. They shall in like manner appoint a chairman of house directors at their meetings in May, August, and November. The same person shall not, unless by special resolution of the Committee, be elected for two terms in succession. The Committee at each monthly meeting shall appoint two members of their body to be house directors for the ensuing month, one of whom, if possible, shall not have served during the previous month. If the same house directors are re-appointed, they shall only be so appointed by special resolution.

23. They shall from time to time cause the beds, clothes, and apparel belonging to the Hospital to be examined, and shall report thereon, if necessary, to the Committee. They shall inspect the tradesmen's bills, and take care that the provisions, bedding, clothing, furniture, and every article for the use of the Hospital be supplied on the most reasonable terms; they shall order in writing all permanent stores, and shall advise the Committee as to all larger requirements and structural alterations.

24. All articles required in large quantity shall, where practicable, be supplied by contract after public tender, and all considerable contracts for work or repairs be made after public tender or invitation to not less than three respectable firms, but the house directors shall not be obliged to accept the lowest or any tender.

25. They shall be authorised in all respects to enforce the observance of the regulations of the Hospital; they shall notice and report to the Committee any irregularity or misconduct on the part of the officers, servants, or patients of the charity, and shall, at every meeting of the Committee, cause a statement of the house expenditure to be produced for the preceding month. They shall appoint and dismiss, or approve the appointment or dismissal, of all nurses, porters, and other servants, male or female.

26. The chairman of the house directors shall, during the intervals between their meetings, be authorised to exercise the functions of the house directors in any matter of urgency, reporting, at their next meeting, what he may have done under this authority.

Physicians.

27. There shall be two physicians and one or more assistant physicians, who shall be Fellows or Members of the Royal College of Physicians of London; and also a surgeon, who shall be a Fellow of the Royal College of Surgeons.

28. One of the physicians shall visit the Hospital at least once every day. The physicians shall have the power of dismissing any patient for refractory conduct or disobedience of orders. The physicians, assistant physicians, and surgeon shall be entitled to attend all Committee meetings.

28A. No physician shall hold the appointment of physician for more than twenty years, nor after he shall have attained the age of sixty-five years.

Assistant Physicians.

29. In case of the illness or necessary absence of either of the physicians, one or the assistant physicians shall attend regularly in his stead. Such attendances

shall be reported to the Committee. If the number of patients exceed 150 an assistant physician shall come on active duty.

30. The surgeon shall undertake the surgical charge of such patients as the physicians may deem necessary, and in case of emergency shall attend when summoned by the resident medical officer. Such attendances shall be reported to the Committee. If unable to attend, the surgeon shall substitute a duly qualified deputy.

Hospital Pupils.

31. No medical student shall be permitted to visit the Hospital unless in company with one of the physicians, or unless regularly entered or registered as a pupil by the physicians.

Architect.

32. There shall be an Architect to the Hospital. He shall advise on all questions concerning the Hospital sites and buildings, and shall supervise the structural maintenance of the Hospital, prepare all plans, and superintend all works connected therewith.

33. His status shall be similar to that of the physicians to the Hospital.

Resident Medical Officer.

34. The resident medical officer shall reside constantly at the Hospital, and shall devote himself entirely to the duties of his office, as defined by these laws and by the by-laws. Candidates for the post shall be required to produce satisfactory testimonials to the Committee.

35. He shall superintend the wards and Hospital generally, between the visits of the physicians, and the dispensary shall be exclusively under his control. In the absence of the Committee and house directors, he shall be recognised as the head of the establishment.

36. He shall keep accurate registers of the patients and of their cases, which registers shall be the property of the Hospital; he shall produce a special report every month, to be laid before the Committee.

37. When the number of patients shall be sufficiently great, or other circumstances render such a step necessary, the Committee shall have power to appoint one or two assistants to the resident medical officer, and he or they shall receive such remuneration as the Committee shall from time to time determine.

Secretary, House Steward, and Collector.

38. There shall be a secretary and a house steward. These offices shall be filled by the same or by different persons as the Committee shall from time to time think fit.

39. The duties of the secretary shall be to have the conduct of the correspondence of the Hospital, the keeping of the accounts, and to perform all duties appointed by the by-laws.

40. The house steward shall have the management of the domestic affairs of the Hospital, under the general superintendence of the resident medical officer, and shall perform the duties appointed by the by-laws.

41. The duties of the collector shall be—

To call on subscribers and collect all donations and subscriptions of the Hospital; to give only authorised printed receipts for the same; to attend all meetings when required; to keep correct lists and duplicate lists of all donations and subscriptions, with the residences of the donors and subscribers, made up from day to day; to pay weekly all moneys he may receive to the bankers; to deliver weekly to the secretary reports in writing of all moneys received and paid, with the balance at the bankers'; to keep the accounts regularly entered in the collector's cash book; to deliver a copy of the annual report to each subscriber; and to perform all the duties appointed by the by-laws.

42. The secretary, house steward, and collector shall be required to enter into bonds with sufficient sureties for the due and faithful performance of their duties in such sums as the Committee may determine.

Matron.

43. The matron shall have the direction of the nurses and female servants in the Hospital, subject to the superintendence of the house directors and the resident medical officer, and shall be responsible for the care and order of the wards. She shall have charge of the housekeeping arrangements, and shall perform the duties appointed by the by-laws.

Election of Officers.

44. The physicians, surgeon, assistant physicians, architect, resident medical officers, matron, auditor, and secretary shall be elected by a Committee comprised of the Committee for the management of the Hospital, the honorary medical officers, and the architect.

Salaries.

45. No variation in the fixed salaries of officials shall be made unless the Committee be summoned for that purpose, and unless the proposed addition or diminution be confirmed by a subsequent Committee.

Trustees.

46. The legal estate in the lands, buildings, and premises of the Hospital shall be vested in not less than three trustees, new trustees being appointed at a general meeting of the governors when vacancies occur.

47. All legacies of £100 and upwards, unless otherwise directed by the testators, shall be invested for the benefit of the Hospital, in the names of three trustees, to be called trustees of the fund.

Religious Ministrations.

48. Ministers of religion of all denominations shall have free and equal access to the Hospital, but no minister of any denomination shall receive any payment out of the funds of the Hospital in respect of his ministrations.

49. It shall be a standing instruction to the Committee and officers of the Hospital that any minister of religion desirous of visiting or ministering to patients of his own denomination shall be received with all courtesy, and shall be afforded all facilities consistent with the wishes and welfare of the patients, and the convenient conduct of the Hospital.

By-Laws.

50. The by-laws which shall from time to time be made by the Committee shall be open to the inspection of any governor, and shall contain, among other things, a full specification of the duties of the resident medical officer, the matron, and other officers and servants of the Hospital, together with the terms of their employment. This specification of his or her own duties shall be read to and assented to in writing by, every person before his or her appointment, and referred to on all occasions of doubt.

At a Meeting of the Committee held at Freemasons' Tavern, on October 13th, 1882, it was resolved:—

1. That no election to the offices of physician, assistant physician, resident medical officer, assistant resident medical officer, secretary, auditor, or matron, be proceeded with until the vacancy has been advertised in three daily London papers and in two medical journals. The first advertisement to be inserted not less than eight days before the election.

List of Life and Annual Governors

AND OTHER BENEFACTORS

OF THE

LONDON FEVER HOSPITAL,

CORRECTED TO 31st DECEMBER, 1912.

Governors are requested to notify to the Secretary alterations of residence, or error, in order to make the Report as correct as possible.
